

 **STARS**
INNOVATIONS
FOR EVERYDAY LIVING

About Nine Stars

Here at 9stars innovations, we pride ourselves in embracing exciting and unique products that bring smiles, more so, innovative products that are simple, distinctive & can be used daily.

Above all, products that are value for money and it's use is simply, justified. Therefore, we create, promote, and deliver unique products that are appreciated that is something different, fun and user friendly.

We apply our dynamic and energetic approach to invite honest appraisals from clients to embrace and rectify there idea's into reality; hence our innovations are highly personalised in the delivery to every household.

INNOVATING TO WIN

The 'Spirit of Innovation' has been foremost in Billy Kukadia's intellect since he established and ran a successful London company. It has continued to be his motivator since taking over the helm of brands such as Ninestars, Townnew, Cyclomop.

This is evident by the pro-active approach and ethos of an organisation whose entire raison d'être is to invent, design, improve and manufacture products that are not only functional but are stylish and have a distinct purpose that fulfils a market need.

This was explicitly demonstrated when Ninestars Sensorbin™ brand stepped up to the mark to provide a safe, reliable way of disposing of waste when hospital-borne infections hit the headlines.

It was clear that there was a distinct need for a hygienic solution that could effectively help to combat the perils associated with C Difficile, MRSA, Salmonella and now covid.

Kukadia was quick to acknowledge the urgent need for a 'no touch' clinical waste disposal product that could reduce the risk of cross-contamination and help prevent the spread of infections. More so, the consequences would benefit both domestic and commercial markets.

This pre-empted the evolution of several other innovative products that incorporate the same hygiene concerns. These include Our latest launch of Townnew; The world's first waste bin that offers self-changing, replacing bin bag liners, whilst sealing it ready for disposal.

World 1st Commercial Heavy-duty Spinning Mop and Bucket set that's Foot And, or hand executed, and 360 Degree spinning Ironing board, to name a few. Our continuous expansion of innovations has been instrumental in the continual growth of 9stars Innovations during the last 23-years.

THE 9 STARS FOR INNOVATION

- We believe that whatever is suitable for a commercial environment should also be adjusted to be utilised in people's homes.
- Innovative products for everyday living
- Excellence in both the look and the functionality of our product design
- Lifestyle enhancing innovations
- Longevity of products means it is better for people and better for business.
- "How come no one ever thought of this before?" Innovations
- Patented Products
- Demonstrable domestic & commercial product range
- Universally utilised innovations

"Our business is to create a new & exciting future for our business partners and customers perpetually introducing new stylish, cutting-edge innovations to utilise in our daily lives."

Over the years, we have learned that success comes from having a combination of great products and great people. Neither one on its own is enough. At 9stars innovations, we are fortunate to have a great team to support and develop the business.
